

Efficient Job Matching System UI Design

Onboarding (Common to All Users)

Component	Description
Landing Page	Intro to platform with CTA buttons (e.g., Sign Up, Learn More)
Sign Up / Login Page	Email/password auth (with validation)
Role Selection Page	User chooses between “Applicant” or “Employer”
Welcome / Tutorial (Optional but it can be put this in landing page)	Short intro or guide depending on role selection

Applicant Side Components

Component	Function
Applicant Dashboard	Personalized overview: recommendations, applications, notifications
Profile Management	Input/edit: education, skills, work experience, certifications
Resume Upload	Upload CV in PDF/DOCX, with feedback after document parsing
Job Listings (Newsfeed)	View jobs with visible suitability scores (% match shown on each card)
Job Details View	Full job description, apply button, and score explanation
Smart Job Recommender	Suggestions if score is too low for a selected job
Job Search & Filtering	Search bar with filters (industry, salary, skills, etc.)
Application Tracker (Optional)	Tracks status: submitted, reviewed, shortlisted, rejected
Interview Scheduler (Optional)	View and book interview slots offered by employers
Notification Center (Optional)	Alerts about new jobs, application status updates, interview requests

Employer Side Components

Component	Function
Employer Dashboard	Summary of job posts, applications, top candidates
Post a Job	Form for entering job title, description, required skills, etc.
Manage Job Listings	Edit, delete, re-open previously posted jobs
View Applications per Job	List of applicants with resume, profile, and suitability score
Candidate Shortlisting	Rank applicants based on fuzzy logic evaluation
Applicant Profile Viewer	Expanded applicant info, documents, and message button
Messaging / Communication Center (Optional)	Chat or email candidates within the platform
Interview Scheduler Tool (Optional)	Send available interview slots to applicants
Analytics & Reporting (Optional)	View performance metrics for job posts and hiring funnel

Submit

After submitting the form, it goes to uploading a resume/CV

One more step away!

Document Verification

Upload your PDF document for verification. We'll check the contents to ensure its validity.

Upload PDF

Choose File

No file chosen

Verify Document

How it works:

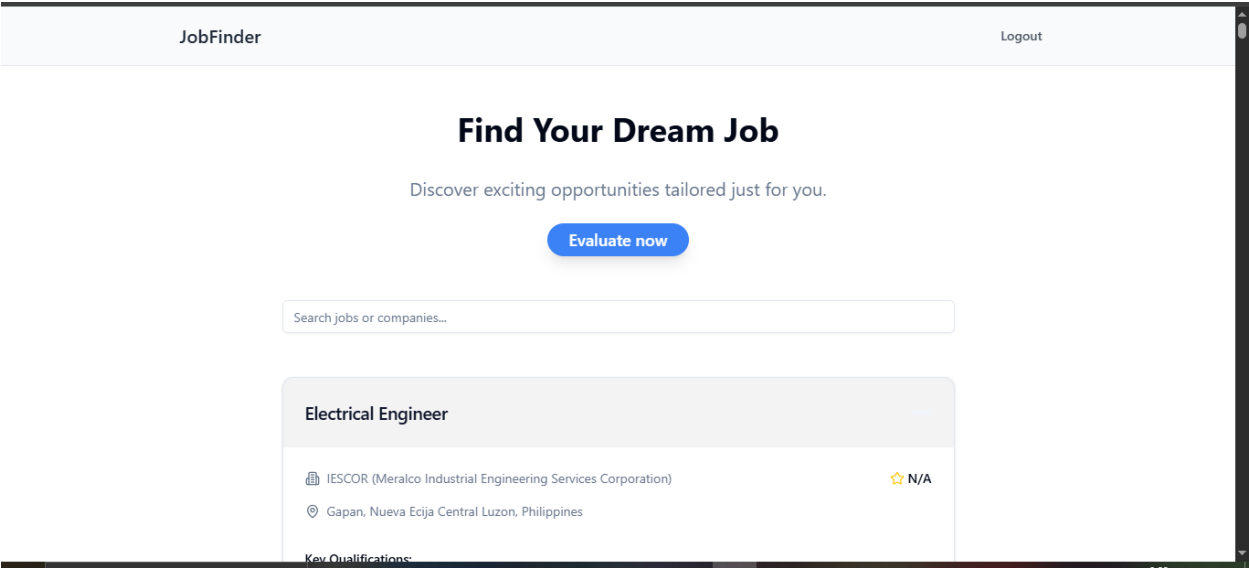

1. Upload your PDF document using the file input above.

2. Click the "Verify Document" button to submit your file.

3. Our system will process your document and verify its contents.

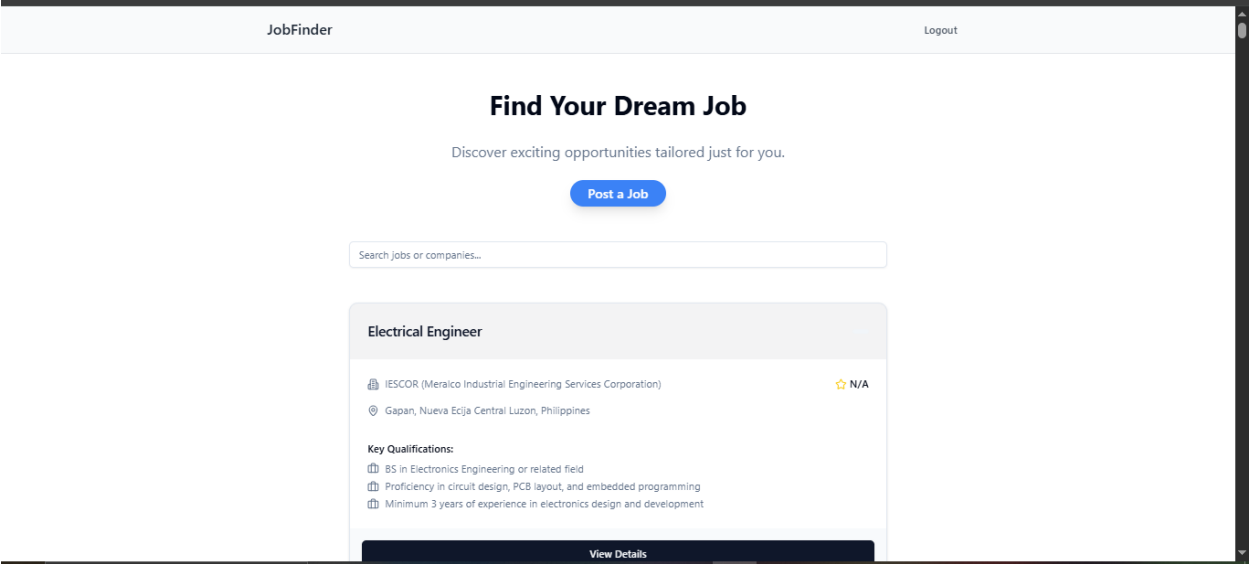

4. Please wait patiently for the process to be completed.

After verifying the document, it goes to the home page and all the list post there will have a percentage score indicated in the top right corner of the post (since the system have a problem it not display the percentage and it display the “N/A” but assume it have a percentage score)

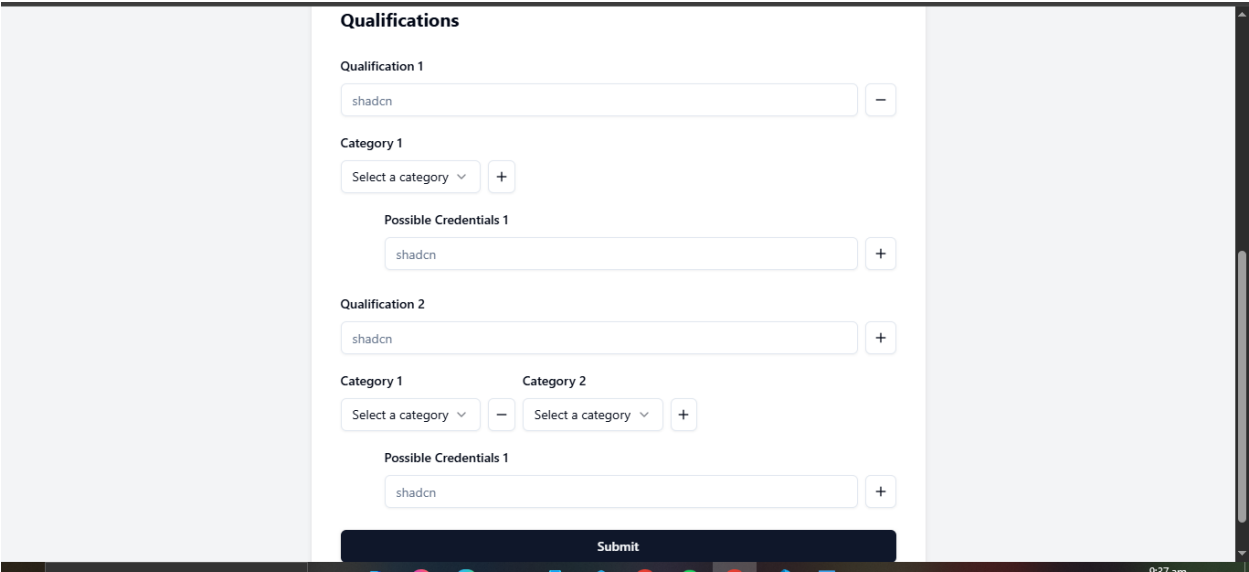

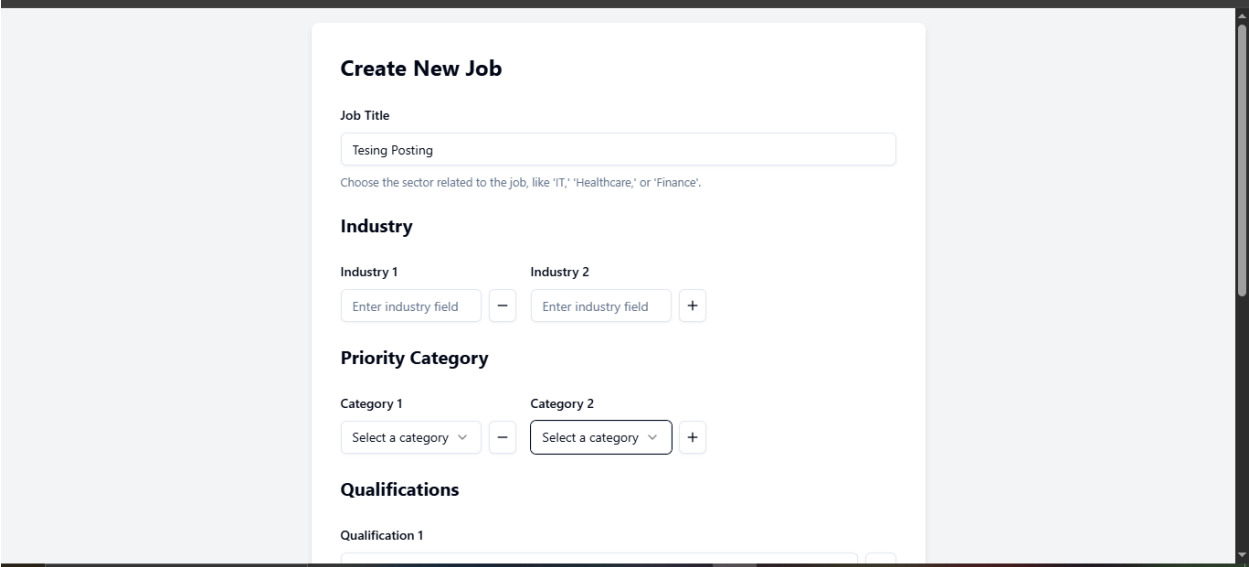

Employer Account role UI

The home page of the employer is same in the applicant account, the different is the button

After clicking the “Post a Job” this is the form to post a new job description

After submitting it will go to home page where all the job post is listed and in the last list it will display the new post
